

**Executives,  
all you always wanted to know about Agile  
but were afraid to ask**

**Paweł Guz**

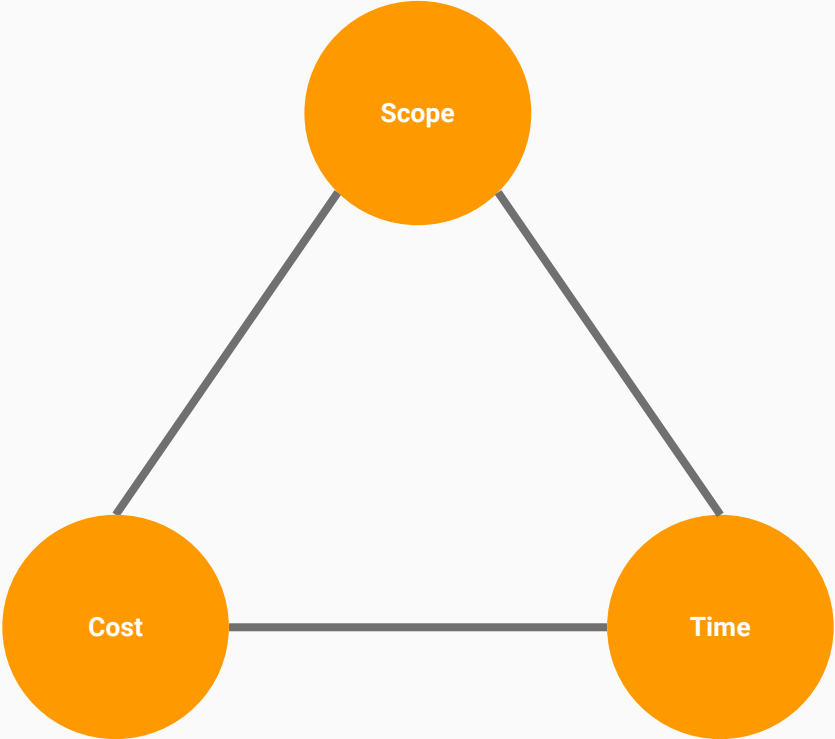

Driving Operational Excellence

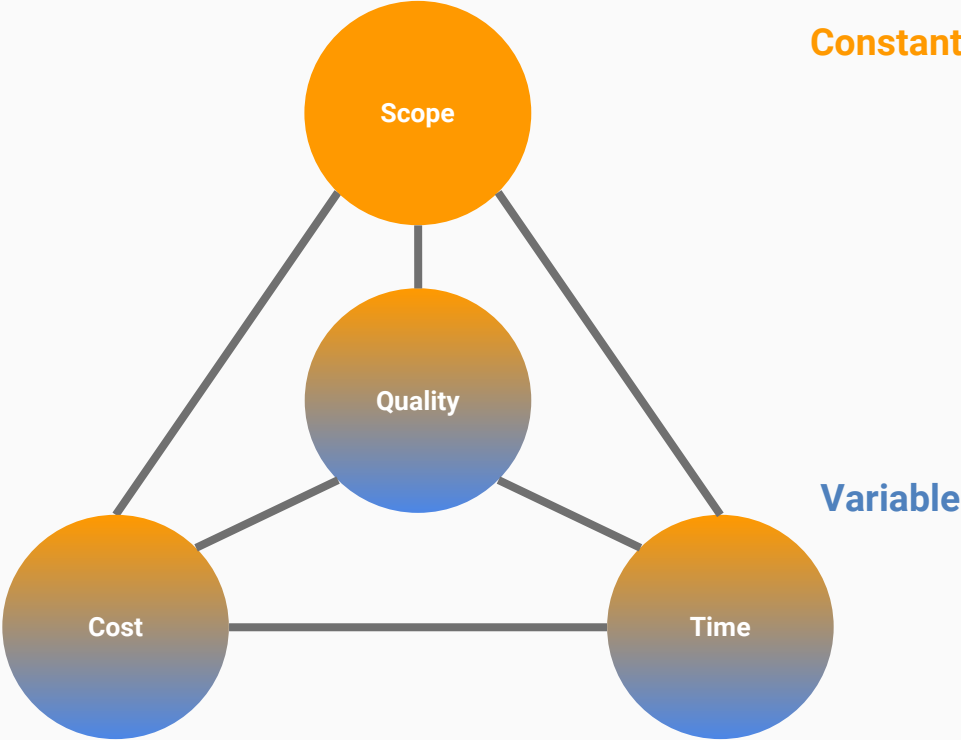

**SoftwarePlant**

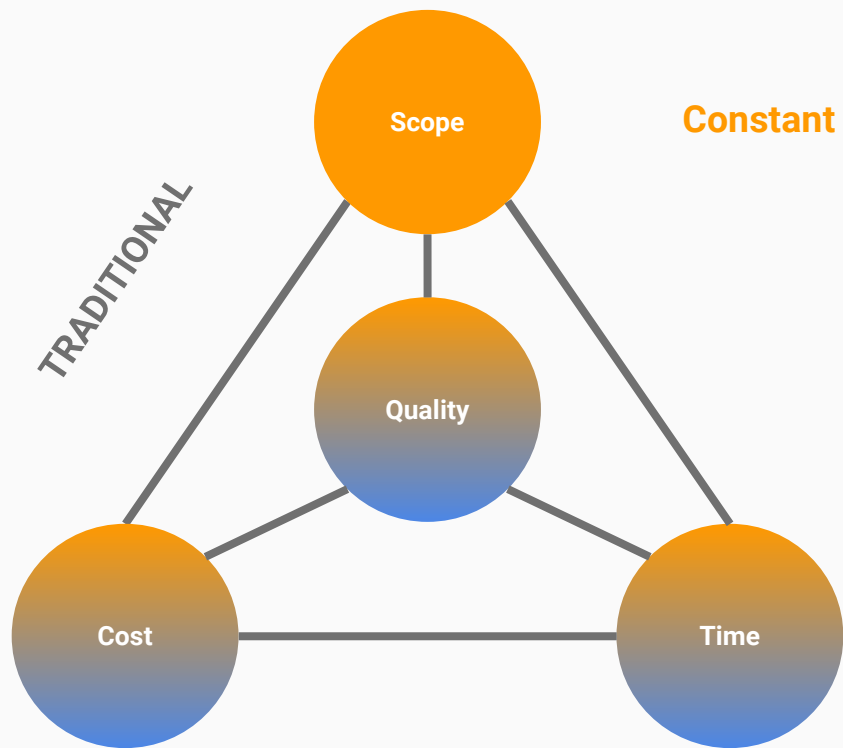

Ideally we'd like to get an agreed **Scope** done within **Budget** and **Deadline**

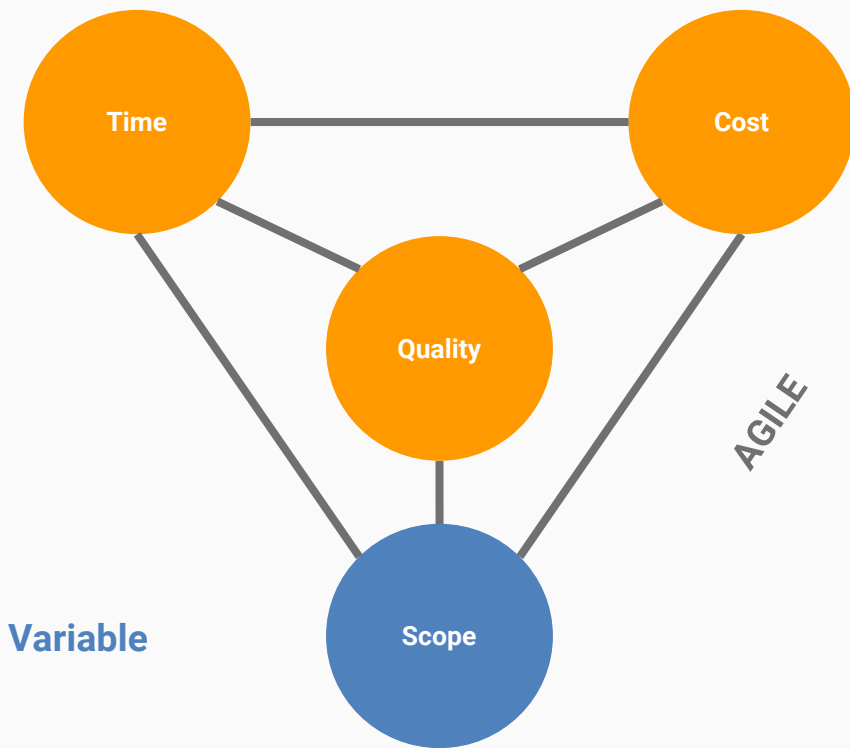

In the traditional approach we need to sacrifice **Cost**, **Time** and/or **Quality** to keep the **Scope** constant

In Agile approaches we keep **Time**, **Cost** and **Quality constant** but allow **Scope** to **vary**

Constant

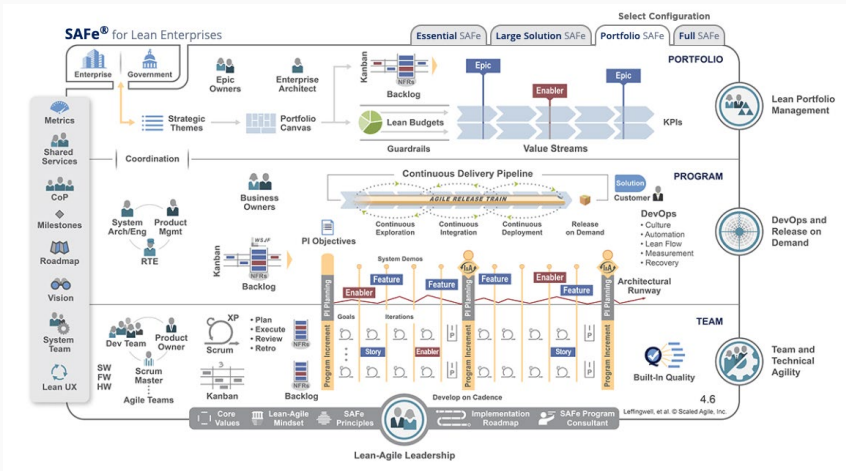

Variable

**HOW TO CONNECT THE AGILE AND TRADITIONAL WORLDS?**

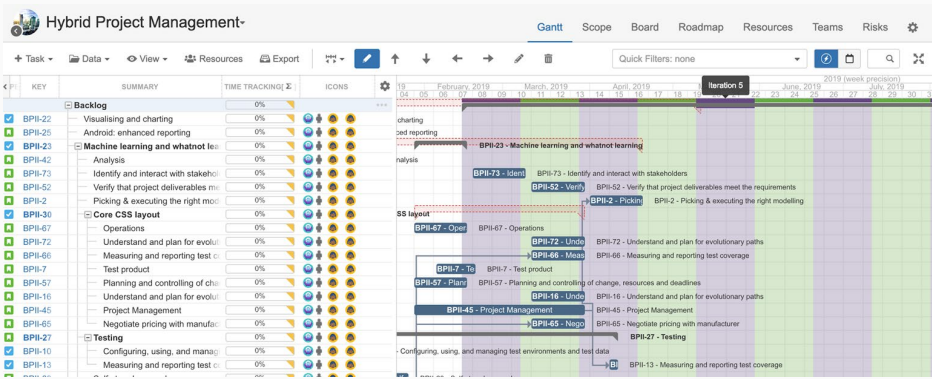

Use **SAFe®** to scale up Agile or a **Hybrid** approach combining waterfall and agile methods

has been designed with  
**Scaled Agile Framework**  
**(SAFe®)**  
in mind

Visualize **iterations**  
in the **project schedule**

Connect tasks from **different teams**  
with **high-level milestones**
